

**LET'S PUT THOUSANDS TO WORK
FIGHTING GLOBAL WARMING.**

**Extend the renewable energy production tax credit
NOW and protect 76,000 American jobs.**

A critical U.S. policy that promotes clean electricity—the renewable energy production tax credit—will expire at the end of this year. With the future of this policy unclear, investments in wind power projects are being placed on hold today and 76,000 high-wage American jobs are at risk.

Urgent action by Congress is needed NOW to extend the production tax credit, save thousands of jobs, and fight global warming. **Help American workers bring home the bacon without cooking the planet—extend the production tax credit today.**
