Noble Environmental's Cycling Team "Rides With the Wind", Raises Almost \$12,000 for Charity

Essex, CT -- A leading wind energy developer based in Essex today announced that it is fielding a team of riders for the Tri-State Trek, a 270 mile charity bike ride to raise funds for research on ALS, also known as Lou Gehrig's disease.

The charity ride begins on Friday July 21st, just outside of Boston, in Newton Massachusetts, and finishes Sunday July 23rd in White Plains, New York. Supporters are encouraged to join Team Noble at the Noble-sponsored pit stop in Old Lyme, Connecticut on Saturday, as well as by cheering on fellow participants as they navigate the roads of the greater northeast.

In 2005, the Tri-State Trek raised over \$107,000 dollars towards searching for a cure for ALS, and this year organizers hope to hit the \$150,000 mark. Team Noble has raised \$11,700 and is comprised of: Nate Sandvig (Team Captain), Glenn Sampson, Dan Boyd, Kate Dio, Dan Nugent, Trevor Lyons, Pip Decker, and Tim Marvich.

"This is a great cause", said Charles C. Hinckley, CEO of Noble Environmental Power. "ALS afflicts as many as 20,000 Americans, with 5,000 new cases diagnosed in the US each year, and we're proud to field a strong team to help fight it."

"We're looking forward to a great ride," said Team Captain Nate Sandvig. "With a little luck, maybe we'll even have some wind power at our backs!"

Proceeds from the ride will be donated to the ALS Therapy Development Foundation (ALS TDF), a nonprofit biotechnology company to founded in 1999 that is devoted to discovering treatments for patients with ALS. For more information about the race, or how to donate please visit: www.tristatetrek.com.

About Noble Environmental Power: Noble is a leading renewable energy company that is majority owned by JP Morgan Partners and was founded in 2004 in response to public policy initiatives designed to foster the increased use of renewable energy sources. Noble is developing windparks in Northern and Western New York, as well as in Huron County, MI, with a generating capacity of more than 1,000 megawatts of clean, renewable energy. Noble is committed to creating environmentally friendly facilities in partnership with local communities. Based in Essex, CT, Noble has offices in Churubusco, NY; Brandon, NY; Arcade, NY; and Bad Axe, MI. For more information, please visit www.noblepower.com, or email to info@noblepower.com.
