Daniel Mandli Joins Noble as National Director of Operations *Renewable energy leader gains top wind energy manager*

ESSEX, CT— Daniel J. Mandli, former General Manager of Wind Operations at FPL Energy, Inc. and one-time Director of Service, Installation and Engineering for NEG Micon USA, Inc., has joined Noble Environmental Power as National Director of Operations, the company announced today.

Mr. Mandli has more than 25 years experience in wind plant operations, with emphasis on tracking and increasing overall turbine performance, customer service, process engineering, and manufacturing and project management.

As National Director of Operations for Noble, Mr. Mandli will be responsible for organizing, recruiting, hiring and training the wind energy leader's North American Operations and Maintenance team. One of Mr. Mandli's first jobs will be to create a National Control Center that will provide 24-hour monitoring of the operations of Noble's windparks.

"Dan Mandli is a national leader in the wind industry and his expertise will be a tremendous asset to Noble, the communities we serve and the wind energy marketplace," said Noble Environmental CEO Charles C. Hinckley. "We're glad he's joined the team."

Mr. Mandli served for two years as a General Manager in FPL Energy Inc.'s Wind Operations, where he managed the operations of wind parks in eight states and oversaw the implementation of that company's centralized monitoring center. He has also served as the Director of Service, Installation and Engineering for NEG Micon USA, Inc., which merged with Vestas Wind Systems A/S in 2004. In that capacity, Mr. Mandli directed the North American Customer Service Organization for NEG Micon USA, Inc. wind turbine projects with operations in the USA and Canada.

Mr. Mandli has a Bachelor of Science degree in Chemical Engineering from the University of Wisconsin and holds a Master's degree in Business Administration from the University of Illinois. He will be based in Noble's headquarters in Essex, Connecticut.

Noble Environmental is developing windparks in Northern and Western New York, as well as in Huron County, Michigan, with a generating capacity of more than 1,000 megawatts of clean, renewable energy.

About Noble Environmental Power: Noble is a leading renewable energy company that is majority owned by JP Morgan Partners and was founded in 2004 in response to public policy initiatives designed to foster the increased use of renewable energy sources. Noble is committed to creating environmentally friendly facilities in partnership with local communities. Based in Essex, CT, Noble has offices in Churubusco, NY; Brandon, NY; Arcade, NY; and Bad Axe, MI. For more information, please visit www.noblepower.com, or email to info@noblepower.com.
